PRO FUTURO!

Sanitary Medical School of Applied Sciences VISAN from Belgrade, Serbia, is a private education institution, founded in 2006, in accordance with the Bologna model of education. It offers **six accredited study programs of basic professional studies**:

Sanitary-Ecological Engineering

Nutrition & Dietetics

Physiotherapy

Radiology

Pharmacy

Nursing

and **four study programs of specialist professional studies**:

Radiology

Physiotherapy

Clinical Care for Nurse Specialist

Sanitary - Ecological Engineering

with the module:

Water and Food Safety

Basic professional studies last three years, i.e. 6 semesters, and the overall credit-rating of each study programme is 180 ECTS. Specialist professional studies last 1 year, i.e. 2 semesters, and provide 60 ECTS. Curriculum is realised through lectures, consultations, seminars, practical teaching and demonstrations, mentorship, field work, clinical practice (groups of 5-10 students), professional practice and visits to other institutions and oral and written examination. Total student engagement consists of: active teaching/learning (theoretical/practical, instruction, seminars etc.), independent student work (homework, projects, seminar papers, field work, etc.), colloquia, exams, graduation paper and other forms of engagement.

Our School is a youthful, innovative and internationally focused institution. It provides a vibrant and stimulating learning environment that prepares students for living and working in a rapidly changing global workplace. It provides friendly, professional, inclusive and supportive learning environment in which students come first. Students benefit from the academic staff's knowledge gained through their engagement in education, research, enterprise and professional practice. Professorial and tutors staff of the School is represented by distinguished scientists, experts in the spheres of their profession, authors of numerous publications deservedly well known and respected both in Serbia and abroad. Our faculty members not only have an academic background in the subjects they teach, but they also possess real-world experience in the workforce. This provides our students with a foundation that prepares them to become competent individuals in a career they enjoy. Our School offers affordable programs, small class sizes and hands-on training.

Our School has been a member of the European Nursing Module Network (ENM) since 2012. The ENM is an association of interested HEI from different EU countries which provide nurse education programmes.

Since 2016, we have also been a member of the European Network of Physiotherapy in Higher education (ENPHE).

In 2022, our School was awarded ERASMUS CHARTER FOR HIGHER EDUCATION by The European Commission.
